REPORT AND RECOMMENDATION

TO THE HONORABLE ARIZONA TRANSPORTATION BOARD:

The Intermodal Transportation Division has made a thorough investigation concerning the establishment and improvement of a portion of U.S. Route 191 within the above referenced project.

The existing alignment for U.S. Route 191 was previously established as a state route and state highway designated State Route 61 by Arizona Highway Commission Resolution dated June 28, 1935, page 306 of the Official Minutes; Resolution dated March 29, 1938, page 516 of the Official Minutes renumbered and redesignated State Route 61 to U.S. Route 666; Resolution dated January 30, 1948, page 291 of the Official Minutes established additional right of way for widening improvements; thereafter Arizona Transportation Board Resolution 92-09-A-64, dated September 18, 1992 renumbered and redesignated U.S. Route 666 to U.S. Route 191.

Additional right of way is now needed to improve the safety of the roadway and install new culverts. Accordingly, it is necessary to establish and acquire the additional right of way for this project.

The additional right of way to be established and acquired for this improvement is depicted in Appendix "A" and delineated on maps and plans on file in the office of the State Engineer, Intermodal Transportation Division, Phoenix, Arizona, entitled "Right of Way Plans, ST. JOHNS - SANDERS Highway, Project U-191-D-701 / 191AP355H541201R."
